

Collision Damage Waiver Update from Globelink:

We have temporarily stopped selling new policies while we implement important changes to secure continued cover for our EU residents both before and after Brexit. At this time you cannot purchase a new policy from us, so we thank you for your understanding while we make these essential changes to ensure that we can continue offering our full range of products to customers. This should be for a very short time.

EXISTING POLICIES:

If you already have a Globelink policy, be assured that your cover remains fully valid and in place until it's expiry date. You do not need to take any action.

AMENDING EXISTING POLICIES

If you need to amend your existing policy, such as date changes, geographical area etc., you can do so by contacting us and paying any applicable change in Premium which may apply in line with the amendments you require.

EXTENDING EXISTING SINGLE TRIP POLICIES:

You can extend your Single Trip Policy with Globelink by contacting us BEFORE your cover expires (so that you maintain continual cover) by contacting globelink@globelink.co.uk or +44(0)1353 699 082. Certain terms and conditions apply, such as maximum trip length, so please contact us with your requirements and we can advise you accordingly.

We remain open and available as usual on: globelink@globelink.co.uk or +44(0)1353 699 082 and we thank you for your understanding.

For notification of when new policies are available please email us and we will get in touch when we recommence sales.

Wherever you travel always check the FCO Travel Advice <https://www.gov.uk/browse/abroad/travel-abroad>. Also that of your own country if you live outside the UK within the EU, and that of the country you intend to visit.

Best wishes, Globelink Team.
